Is there any 5G base station jointly built by Samoa Communications

Overview

Will Samoa get 5G?

Samoaan customers with compatible 5G devices in and around the Levili Data Centre, FMFMII, NFP building, Tatte building and Frankie mall will be among the first in Samoa to experience the power of 5G. Digicel Samoa CEO, Anthony Seuseu, said; “We are thrilled to be the first mobile network in Samoa to go live with 5G.

Does Digicel Samoa have 5G?

Digicel Samoa announced on Monday that it has officially kicked off its rollout of 5G services with five 5G sites going live in the Apia CBD. The sites cover the Levili Data Centre, FMFMII, NFP building, Tatte building and Frankie mall. Digicel customers with 5G-compatible devices will be able to use 5G in those areas, the company said.

How fast is 5G?

Digicel also said that initial test results at the new 5G sites demonstrated average speeds of 550-600 Mbps, albeit with the caveat that actual speeds will depend on the usual factors (location, distance from the mobile tower, local conditions, concurrent users, hardware and software configuration and download/upload destination, etc).

Will 5G be better than 4G?

Customers with compatible 5G devices will be able to access faster speeds than their current 4G, enabling superior streaming, lightning-fast downloads and an enhanced gaming experience.
