Israel's backup power storage investment

Overview

Israel has awarded 1.5 GW of energy storage contracts across 11 projects, with a total investment of \$840M. The projects, set to be operational by 2027, will enhance renewable energy integration.

Israel has awarded 1.5 GW of energy storage contracts across 11 projects, with a total investment of \$840M. The projects, set to be operational by 2027, will enhance renewable energy integration.

The Israeli Electricity Authority (IEA) has awarded contracts for 1.5 GW of high-voltage battery storage across 11 projects in a recent tender. The awarded facilities will be developed in three key regions, helping integrate renewable energy into Israel's power grid. The tender attracted 11 bidders.

Energy Minister Eli Cohen (fourth from right) helps inaugurate the new National Institute for Energy and Electrochemical Storage at Bar-Ilan University, near Tel Aviv, June 3, 2025. (Shlomi Mizrahi, Bar-Ilan University) Sodium-based batteries for storing renewable energy cheaply and the recycling.

Enlight has secured a grid connection for 300 MW via two projects in Israel, which will add between 1,300 to 1,900 MWh of energy storage to the grid. Israeli renewable energy developer Enlight has won grid connection rights for 300 MW of battery storage capacity in a national tender, enabling the.

In an effort to drive the country to deploying more energy storage, the Israeli Ministry of Energy and Infrastructure has announced four large-scale battery storage projects. The government ministry – renamed from the Ministry of Energy in February to reflect a wider remit – said yesterday (2 May).

Israel is entering a decisive phase in its clean energy transition, with Battery Energy Storage Systems (BESS) becoming a strategic priority for grid stability, renewable integration, and energy security. Driven by ambitious government targets, large-scale tenders, and a thriving energy tech.

Azrieli Group partners with Shikun & Binui for a groundbreaking solar-plus-

storage project, advancing Israel's renewable goals and securing clean energy for 20 years. Azrieli Group has agreed to purchase 50% of the Ramat Beka solar-plus-storage project from Shikun & Binui Energy in Israel's Negev.
