

## ContainerPower Energy Solutions

# Jordanian large energy storage vehicle manufacturer

## Overview

---

Electron was established in 2016, and it's a subsidiary company for Jordan Tractor & Equipment Company (JTEC) and targeting; EV Charging Systems, Solar and Hybrid Energy Systems with Energy Storage Systems (ESS) and Energy Management & Auditing. Does Jordan have an EV charging system?

Jordan's Ministry of Energy and Mineral Resources has an innovative program to integrate renewable energy with EV charging infrastructure, with 20 charging stations along major highways powered entirely by solar energy.

Who drives an electric car in Jordan?

Queen Rania of Jordan is one of many Jordanians who drive an electric car. (Photo by JAMAL . More Norway has the highest share of electric cars sales in the world, with the Middle Eastern country of Jordan as a surprising second - despite many obstacles. Almost all cars are imported to Jordan through the free trade zone.

What are the best EVs in Jordan?

The best selling EVs in Jordan are Volkswagens, BYDs, Hyundais, Kias, Nissans and the cheap Changan, almost all of them produced in China. There is talk about local assembly in Jordan, but the lack of expertise and tradition has until now proved a hindrance.

Why is Jordan focusing on charging infrastructure?

While many countries increasingly focus their attention on the charging infrastructure, Jordan has focused its incentives on the vehicles, believing that if there is sufficient vehicle demand, chargers will be established.

How much does EV cost in Jordan?

Most EV owners in Jordan rarely charge at public chargers, but when they do the fixed price of \$0.28/KWh is significantly lower than elsewhere in the world. The prices and correlation with petrol remains over time, since prices of

electricity and fuels are decided by the government.

Are EVs a good investment in Jordan?

With direct subsidies for EV purchases, reduced interest rates on EV loans or other additional measures, EV ownership will increase even more rapidly, especially in the middle- and low-income household segments. The best selling EVs in Jordan are Volkswagens, BYDs, Hyundais, Kias, Nissans and the cheap Changan, almost all of them produced in China.
