# Kenya is developing BESS energy storage equipment

## Overview

---

The Kenya Electricity Generating Company PLC (KenGen) has unveiled its first-ever Battery Energy Storage System (BESS) to power its modular data centre in Nairobi.

The Kenya Electricity Generating Company PLC (KenGen) has unveiled its first-ever Battery Energy Storage System (BESS) to power its modular data centre in Nairobi.

KenGen is the leading electric power generating company in Kenya, generating 1904MW, which represents a market share of 65% of the nation's installed capacity, making KenGen the largest energy producer in East Africa. The company's energy mix includes Hydro (825.69 MW), Geothermal (799 MW), Solar.

The Kenya Electricity Generating Company PLC (KenGen) has unveiled its first-ever Battery Energy Storage System (BESS) to power its modular data centre in Nairobi. The new system marks a significant step in Kenya's transition to a low-carbon future and reinforces KenGen's commitment to reliable.

East African country, Kenya, has launched its very first Battery Energy Storage System (BESS) to supply uninterrupted renewable power to its modular data center in the nation's capital, Nairobi. In a press statement on Tuesday, the state-owned Kenya Electricity Generating Company (KenGen) said the.

The emergence of battery energy storage systems (BESS) as a solution to the intermittency of renewable energy has gained significant attention in the energy transition. These systems are being recognized for their ability to deliver multiple benefits and solutions that can enhance the stability and.

KenGen has been appointed to serve as the Implementing Agency for the Kenya Battery Energy Storage System (BESS) as part of the program funded by the World Bank institution known as the Kenya Green and Resilient Expansion of Energy (GREEN). In order to facilitate this project, a pioneer BESS.
