Kosovo solar power home recommendations

Overview

How can Kosovo improve its energy sector?

The Government of Kosovo aims to put its energy sector on a sustainable path, through developing renewable energy potential, improving energy efficiency, closing a 50-year-old power plant, and rehabilitating another old power plant.

Does Kosovo have solar power?

Kosovo has the potential of capturing solar energy directly and converting it to electricity. The region of highest solar potential based on global horizontal irradiation is the southwestern part of Kosovo, centred around the city of Gjakova. Solar power is already used on the roofs of some buildings.

Why does Kosovo need a reliable electricity system?

In order to boost employment, increase growth, reduce poverty, and improve people's lives, Kosovo needs affordable and reliable energy. The country's current electricity system is outdated, inadequate and undependable - posing significant challenges to economic growth and development.

What is the New Kosovo power plant?

The New Kosovo power plant is part of the government's plans to reform Kosovo's energy sector. Other plans include closing Kosovo A power station by 2017, rehabilitating Kosovo B power station to meet EU standards, and privatizing the country's electricity distribution system. Plans for New Kosovo also include a lignite coal mine, the Sibovc SW.

How much power does Kosovo have?

Energy Infrastructure Today, Kosovo's electricity operating capacity is about 900 MW, almost all of which comes from two antiquated coal-fired power plants, Kosovo A and Kosovo B. As the population grows, ongoing constraints on power will continue to increase.

How many hydroelectric power plants are there in Kosovo?

Hydroelectric power generation is mainly provided by Ujmani power station with a capacity of 70 MW. In the past, Kosovo has had four functional hydroelectric power plants. After the 1999 war they stopped working, but they have been rehabilitated in the recent years. Lumbardhi hydroelectric power plant was rehabilitated in 2005.
