Lesotho Energy Storage Power Station

Overview

How much electricity does Lesotho produce?

Lesotho produces about 72 MW from hydropower (Meula). It has about 150 MW peak power and imports more than 70 MW mainly from Mozambique (29% of peak demand) and 20% of its peak demand from South Africa. The electricity supply accounts only for +-50% in the energy mix.

Who is constructing a solar power plant in Lesotho?

The government has also engaged China Sinoma International Engineering and TBEA Xinjiang New Energy to construct solar power plant that will produce 70 MW. Lesotho Electricity and Water Authority (LEWA) Lesotho Electricity Company (LEC) Lesotho Highlands Development Authority (LHDA).

Can Lesotho produce 450 MW of hydropower?

According to Lesotho's Department of Energy, Lesotho could potentially produce 450 MW in hydropower and several hundred more with wind power. However, only 17 percent of this potential is being exploited, 96 percent of it at the 'Muela hydro-power plant and the rest from mini hydro-power plants at Mants'onyane, Mokhotlong, Tsoelike, and Semonkong.

What are the potential energy resources in Lesotho?

Potential grid and off-grid renewable energy resources in Lesotho include hydro power, solar and wind energy. Biomass can also be considered where the material can be transformed to produce electricity either through direct combustion or via biogas. Hydro and pumped Storage.

How does Power Africa support the energy sector in Lesotho?

Power Africa supports the energy sector in Lesotho by developing electricity generation projects. Additionally, various firms in Lesotho have received U.S. Embassy support to move transactions forward. For more information, please refer to the page below, which gives an overview of the energy sector in

Lesotho and explains Power Africa's involvement in the country.

Can Lesotho export wind power?

Breeze Power, a company owned jointly by GOKL and Harrison & White Investments, is investigating twelve sites for wind power generation. Energy demand is growing in South Africa and the rest of the region, and Lesotho has the potential to export renewable power.
