Lilongwe, Malawi | 25th November 2024 — The Global Energy Alliance for People and Planet (GEAPP) and the Government of Malawi have officially launched the construction of a 20 MW battery energy storage system (BESS) at the Kanengo substation in Malawi's capital city, Lilongwe. This is GEAPP's first.

The Global Energy Alliance for People and Planet (GEAPP), in partnership with Malawi's government and ESCOM, has launched a \$20 million project to build the country's first Battery Energy Storage System (BESS) in Lilongwe. The initiative aims to cut carbon emissions by 10,000 tons annually while.

Malawi is building its first battery-energy storage system to protect its grid from extreme weather, including cyclones that have repeatedly disrupted power in recent years. Last May, Golomoti Solar PV and Battery Energy Storage Project successfully entered commercial operations in Malawi. The.

Malawi constructing first battery-energy storage system to enhance grid resilience against cyclone-related outages. 20-megawatt project backed by Global Energy Alliance for People and Planet and Malawian government, aiming to provide backup power during grid disruptions. Project addresses energy.
