

ContainerPower Energy Solutions

Manufacturing container energy storage manufacturers supply

Overview

What is energy storage container?

SCU uses standard battery modules, PCS modules, BMS, EMS, and other systems to form standard containers to build large-scale grid-side energy storage projects.

What is a battery energy storage system?

Battery Energy Storage Systems (BESS) are crucial for utility and energy companies, and at GTI Fabrication, we offer a wide range of manufacturing capabilities to provide BESS integrators with options that cover the entire Energy Storage Enclosure spectrum.

What energy storage container solutions does SCU offer?

SCU provides 500kwh to 2mwh energy storage container solutions. Power up your business with reliable energy solutions. Say goodbye to high energy costs and hello to smarter solutions with us.

What is a mobile energy storage system?

On the construction site, there is no grid power, and the mobile energy storage is used for power supply. During a power outage, stored electricity can be used to continue operations without interruptions. Maximum safety utilizing the safe type of LFP battery (LiFePO4) combined with an intelligent 3-level battery management system (BMS);

How can a mobile energy storage system help a construction site?

Integrate solar, storage, and charging stations to provide more green and low-carbon energy. On the construction site, there is no grid power, and the mobile energy storage is used for power supply. During a power outage, stored electricity can be used to continue operations without interruptions.

What is a container enclosure body with a battery rack?

1. Container Enclosure Body with Battery Rack This is our foundation-level BESS solution, designed with flexibility in mind. It features a high-quality container enclosure pre-installed with a battery rack, allowing clients to integrate their own battery packs, cooling systems, fire suppression systems, and other components.
