

ContainerPower Energy Solutions

Mauritius Base Station Power System Design

Overview

The project will provide four medium speed, four stroke, heavy fuel oil (HFO) driven generators with a capacity of 15 MW each; a power station building; two 1000 cubic metre tanks for the storage of HFO; and one 132 Kv substation for connection of the power plant to the existing electricity grid belonging to the Central Electricity Board (CEB), the State owned electricity utility in Mauritius.
