Micronesia Energy Storage Capacity BESS Price Inquiry

LiFePO₄ Battery, safety

Wide temperature: -20~55°C

Modular design, easy to expand

The heating function is optional

Intelligent BMS

Cycle Life: ≥ 6000

Warranty: 10 years

Overview

A 50kW/100kWh BESS unit typically costs between \$80,000-\$120,000, including outdoor-rated enclosures and thermal management. Larger systems (>500kWh) see economies of scale, with prices dropping to \$600-\$800 per kWh. Case Study: A resort in Pohnpei installed a 200kW solar + 150kWh BESS system in 2022.
