Mongolia Electric Energy Storage Project

Overview

The project is aligned with the government medium and long term renewable energy target: (i) 100 MW of power storage installed to the CES to increase renewable energy power generation and reduce coal fired power generation in the Medium Term National Energy Policy (2018-2023) and (ii).

ULAN BATOR, Oct. 31 (Xinhua) -- The Asian Development Bank (ADB) said Friday that it has been engaged by the Mongolian government to provide transaction advisory services for the Stable Solar Energy in Mongolia Project. In a statement, the ADB said it aims to develop about 115 megawatts of solar.

The new project aims to change that by delivering reliable, affordable, and low-carbon power to some of the nation's most remote areas. "ADB is proud to support Mongolia in advancing its clean energy transition through innovative renewable energy and storage solutions," said Shannon Cowlin, ADB.

y-Scale Energy Storage Project. Part of this financing will be used for payments under the contract named above. installation and commissioning of 80 MW/200 MWh battery design storage systems in the United States. Strata Clean Energy, formally known as Strata Solar, develop storage system.
