

## ContainerPower Energy Solutions

# Morocco s new energy storage equipment

**5** Years  
warranty

## Overview

---

On May 20, 2025, the Masen Agency announced a new pilot project called the “Morocco Energy Storage Testbed Project,” validated by the World Bank. Deployed at the iconic Noor Ouarzazate site, this program aims to experiment with different technological storage solutions to improve grid.

On May 20, 2025, the Masen Agency announced a new pilot project called the “Morocco Energy Storage Testbed Project,” validated by the World Bank. Deployed at the iconic Noor Ouarzazate site, this program aims to experiment with different technological storage solutions to improve grid.

Morocco is preparing to launch a massive foray into clean energy with its ambitious 1.6 GW BESS projects. The National Office for Electricity and Drinking Water (ONEE) is expected to invite tenders for battery energy storage systems (BESS) totaling nearly 1,600MW. Furthermore, the action is in line.

To address this, Morocco is resolutely focusing on lithium iron phosphate (LFP) batteries, a reliable, durable technology suited to local constraints. This choice is part of a national strategy for equipping, testing, and industrializing energy storage. Globally, the battery market is experiencing.

Morocco is accelerating its energy transition by issuing a global call for expressions of interest to build two large-scale battery storage facilities. The projects are spearheaded by the Moroccan Agency for Sustainable Energy (MASEN) and Morocco’s national electricity company ONEE. On May 20.

In this regard, the country is emerging as a future regional hub for lithium and electric batteries, thanks to its agreements with the South Korean giant and world leader in energy storage solutions, LG Energy Solution, and with the Chinese lithium specialist Yahua Group. As part of a strategy to.

COBCO, a joint venture between CNGR and Al Mada, launched today a two billion dollar lithium-ion battery materials plant in Morocco, the first of its kind outside Asia, as it seeks to become a key supplier for electric vehicle and energy storage markets. Riyadh-based energy company Acwa Power will.

Le Morocco takes a new step in its energy transition strategy with the launch of the project " Morocco Energy Storage Testbed ", a battery energy storage test platform. This pilot program, supported by the Moroccan Agency for Sustainable Energy (Masen), received World Bank approval for a \$4,5.
