LPW48V100H
48.0V or 51.2V

Overview

How much does a solar panel cost in New Zealand?

"We really are at the turning point, at the make it moment, once we reach this last hurdle stone I can envision it becoming a product and seeing it on people's roofs in a couple years." An average solar panel system on a New Zealand house will set you back about \$9,000 for installation and materials.

Where can I buy premium solar panels?

Discover unbeatable prices on premium solar panels at Wholesale Solar. Sourced in bulk directly from manufacturers, our Auckland warehouse ensures quick nationwide shipping. Enjoy full manufacturer warranty. Minimum order: 1 pallet, with extra discounts for bulk orders.

Who are NZ solar installers?

Trusted by NZ installers. We supply premium solar panels, inverters, batteries, cables, and mounting systems — all in stock locally for fast delivery. Our global brand partnerships mean proven performance and reliability. Expect sharp pricing, responsive service, and tech you can trust — so your installs are faster, easier, and more profitable.

Who are Solar Partners NZ?

By continuing to browse the site, you are agreeing to our use of cookies. Solar Partners NZ are the only authorised distributor of Enphase products in NZ. We're a premier solar system wholesaler, trainer & business support hub.

Where can I get solar training in New Zealand?

New Zealand's only live in-house solar training centre where installers electricians, builders and resellers nationwide can gain first-hand experience installing solar. We at Solar Partners provide a range of training modules led by industry leaders across all our products.
