

ContainerPower Energy Solutions

New Zealand lithium battery energy storage site

Overview

The announcement was made on June 5, 2025, and the project will be situated at the Huntly Power Station, located in the Waikato region, which is home to New Zealand's largest river and lake.

The announcement was made on June 5, 2025, and the project will be situated at the Huntly Power Station, located in the Waikato region, which is home to New Zealand's largest river and lake.

The TotalEnergies subsidiary will supply 70 of its Intensium Shift+ battery containers as part of a plan to transform the coal- and gas-fired power site to renewables. The Saft battery division of French energy and petroleum multinational TotalEnergies will supply 70 of its containerized Intensium.

Meridian Energy is building New Zealand's first large-scale grid-connected battery energy storage system (BESS) at Ruakākā on North Island. Paris, January 10, 2023 – Saft, a subsidiary of TotalEnergies, has been awarded a major contract by Meridian Energy to construct New Zealand's first large-scale.

In a major step forward for New Zealand's renewable energy future, Genesis Energy has commenced construction on a 100 MW / 200 MWh Battery Energy Storage System (BESS) adjacent to the iconic Huntly Power Station. As lead designer, our strong technical expertise and agile problem-solving to design.

Genesis Energy, a publicly listed energy company in New Zealand, has commenced construction on a significant battery energy storage system (BESS) with a capacity of 100MW/200MWh. The announcement was made on June 5, 2025, and the project will be situated at the Huntly Power Station, located in the.

The NZ Battery Project was set up in 2020 to explore possible renewable energy storage solutions for when our hydro lakes run low for long periods. A pumped hydro scheme at Lake Onslow was one of the options being explored. The Government stopped the Lake Onslow investigations in late 2023. MBIE is.

Saft partners with Genesis Energy to revolutionize New Zealand's energy landscape, launching a powerful 100-MW battery storage project at Huntly Power Station by 2026. Saft, a subsidiary of TotalEnergies, has secured a contract with Genesis Energy to supply a battery energy storage system for a.
