

## ContainerPower Energy Solutions

# New Zealand outdoor energy storage battery manufacturer

## Overview

---

Which energy company is building New Zealand's first grid-connected battery energy storage system?

Meridian Energy is building New Zealand's first large-scale grid-connected battery energy storage system (BESS) at Ruakākā on North Island. Paris, January 10, 2023 – Saft, a subsidiary of TotalEnergies, has been awarded a major contract by Meridian Energy to construct New Zealand's first large-scale grid-connected BESS.

Is New Zealand a key market for storage solutions?

Power Electronics NZ Ltd Operations Director Brent Sheridan sees New Zealand as a key market for storage solutions with future generation growth primarily being led by solar and wind technology. "Both these forms of generation work perfectly in combination with batteries to provide a continuous and stable energy supply.

Will a 100-megawatt solar farm improve New Zealand's national grid?

Located at Ruakākā in the country's North Island, the 100-megawatt (MW) BESS will improve the stability of the national grid, as intermittent renewable power generation increases in New Zealand. The BESS is the first stage of a project that will include the construction of a co-located 130 MW solar farm by Meridian Energy.

What is a scalable solar energy storage system?

With scalable solar energy storage systems that cut costs, boost resilience, and gives farms and businesses full control over your energy use. Ernest Energy provides turnkey solar and battery energy storage systems (BESS) tailored for New Zealand's commercial and agricultural sectors.

Where is the largest solar power plant in New Zealand?

The construction of the Huntly BESS follows Genesis Energy's recent launch of

what it claims is the country's largest solar PV power plant: the 63MWp Lauriston site, located west of Christchurch on the South Island, near the Rakaia River in the Canterbury Plains.

What is solar energy & lithium battery?

We specialize in solar energy systems and lithium battery solutions for RVs and homes, providing efficient, safe, and sustainable clean energy. Our solar PV systems and storage batteries help reduce costs and improve efficiency for residential, commercial, and outdoor use.
