

ContainerPower Energy Solutions

New energy storage project in northern Kenya

 **TAX FREE**    

Product Model
HJ-ESS-215A(100KW/215KWh)
HJ-ESS-115A(50KW 115KWh)

Dimensions
1600*1280*2200mm
1600*1200*2000mm

Rated Battery Capacity
215KWH/115KWH

Battery Cooling Method
Air Cooled/Liquid Cooled

ENERGY STORAGE SYSTEM

Overview

Kenya is stepping up its renewable energy efforts with a newly announced solar-plus-storage project, aiming to enhance energy security and grid stability in a region heavily reliant on hydropower. Who is the implementing agency for the Kenyan battery energy storage system?

The Kenya Electricity Generating Company PLC (KenGen), has been designated to be the Implementing Agency for the Kenyan Battery Energy Storage System (BESS), which is part of the Kenya Green and Resilient Expansion of Energy (GREEN) program, funded by the World Bank.

Where is the Seven Forks solar-plus-storage project located?

Located near Kamburu Dam in Embu County, approximately 150 km northeast of Nairobi, the Seven Forks solar-plus-storage project will not only inject clean energy into the national grid but also enhance grid stability through integrated battery storage. The scope includes:

Will Kengen implement a 100MW Bess project in 2024?

KenGen has announced that it will implement an initial 100MW BESS project as part of the World Bank funded GREEN program in early 2024. The BESS project has been identified as a possible solution to increased proportion of intermittent energy to the Kenyan power system and energy curtailment during off peak hours.
