

## ContainerPower Energy Solutions

# Nordic assembled lithium battery pack

## Overview

---

Who is Nordic batteries?

At Nordic Batteries we assemble and manufacture customized battery- and energy storage solutions to drive your business forward. Based on our market and technological expertise we deliver solutions powering the green shift for key industries. High energy battery module produced in Norway from norwegian battery cells.

Are Nordic batteries looking for a development engineer?

Nordic Batteries are seeking a development engineer for mechanical construction and system design. Factor 47 is operative! The pilot line where Nordic Batteries will produce their first battery modules is now officially open after the visit from former Prime Minister Erna Solberg where she cut the banner to kick it off.

What is a lithium battery pack?

A lithium battery pack is a collection of individual lithium-ion or lithium-polymer cells grouped together to store and deliver electrical energy. These packs are widely used in applications such as electric vehicles, renewable energy systems, and portable electronics.

What is a high-performance lithium battery pack?

As the world transitions towards sustainable energy solutions, the demand for high-performance lithium battery packs continues to soar. At the heart of this burgeoning industry lies a meticulously orchestrated assembly process, where individual lithium-ion cells are transformed into powerful energy storage systems.

Why is quality control important in a lithium battery pack assembly?

Consequently, this intricate step paves the way for efficient power transfer and optimal pack performance. Quality control is a cornerstone of the lithium

battery pack assembly process.

What is a lithium battery management system (BMS)?

The cells within a lithium battery pack are typically arranged in series or parallel configurations to achieve the desired voltage and capacity. Additionally, a Battery Management System (BMS) is often integrated to monitor and ensure the safe operation of the battery pack.
