

ContainerPower Energy Solutions

Nordic lithium battery energy storage project

Overview

The project will add 70 MW/140 MWh of storage capacity to SEB Nordic Energy's Finnish portfolio, which already includes wind and hydropower. Located in Nivala Municipality in Finland's Ostrobothnia region, the project is expected to be completed in 2026.

SEB Nordic Energy's portfolio company, Locus Energy, in collaboration with Ingrid Capacity, will build the largest battery energy storage project in the Nordics. The project will add 70 MW/140 MWh of storage capacity to SEB Nordic Energy's Finnish portfolio, which already includes wind and.

A new battery storage project is nearing completion in Borup, Denmark, a region just north of the country's capital city, Copenhagen. According to Renewable Energy Magazine, energy company Nordic Solar has signed a credit agreement with Danish bank Ringkjøbing Landbobank to bring the energy-storage.

10.3.2023 - In the latest expansion of its battery storage capacity, Axpo will build a 20MW/20MWh facility in Sweden to deliver services to the grid in 2024, it was announced today. Axpo acquired the project from developers RES, a global renewable energy company, and Scandinavian Capacity Reserve.

Romina Pourmokhtari, Sweden's Minister for Climate and Environment, officially inaugurated the largest energy storage park in the Nordic region. The initiative, led by Ingrid Capacity in collaboration with BW ESS, consists of 14 large-scale energy storage systems with a total capacity of 211 MW/211.
