Germany, Denmark, Finland, No. Fred. Olsen Renewables Brazil, South Africa, Norway. Germany, France, Italy, Norwa.

Can you collect solar energy in Norway?

For example, the collection of solar energy was once regarded as gratuitous – especially in parts of the country that had a surplus of energy. Most homes in Norway are now equipped with smart meters allowing you to harvest solar energy, store it, and even sell it back to energy companies.

How does solar power work in Norway?

Solar power is only produced during the day, thus it must either be used immediately, stored or sold via the central electricity grid. In Norway, production of solar energy can offload the tapping of water reservoirs. Smart grids and digitization: Most Norwegian households will soon be equipped with smart meters.

How do I install a solar system?

Select the desired building on which you want to have a solar system installed. Get a proposal for a suitable solar cell system based on the building's dimensions. Choose the roof type and draw in pipes, ventilation, snow traps and other obstacles on your roof. See your solar system in 3D.
