PV Inverter Rumors

GRADE A BATTERY

LiFepo4 battery will not burn when overcharged over discharged, overcurrent or short circuit and can withstand high temperatures without decomposition.

Overview

Which inverter companies bucked the trend?

However, inverter companies bucked the trend, becoming the industry's brightest spot. Leading firm Sungrow achieved revenue of 77.86 billion yuan and a net profit of 11.04 billion yuan attributable to the parent company, both of which were record highs, with year-on-year growth of 7.76% and 16.92% respectively.

How resilient is the inverter segment in the photovoltaic industry?

With continuous cost control optimisation and improvements in technological innovation and production efficiency, the inverter segment is expected to maintain its strong performance, becoming one of the most resilient niches in the photovoltaic industry chain.

Is solar PV the most cost-competitive power source in 2025?

Solar PV technology has maintained its leading position as the most cost-competitive power generation source in 2025, according to analyst Wood Mackenzie. Abigail Ross Hopper, the president and CEO of US trade association the Solar Energy Industries Association (SEIA), has decided to step down from her roles at the end of January 2026.

Which companies dominated the global inverter market?

Huawei's inverter segment also delivered an outstanding performance, with the two companies dominating the global market by a wide margin. Other enterprises, such as TBEA, Senergy, Deye and Ginlong (Solis), followed closely behind.

What's happening in the global PV industry?

In a new weekly update for pv magazine, OPIS, a Dow Jones company, provides a quick look at the main price trends in the global PV industry. Scientists in Morocco have developed a novel solar panel cleaning system

designed to remove dust and bird droppings.
