What is a 12 volt battery box?

Our portable 12 Volt battery boxes are heavy duty power solutions that can be mounted securely into your 4x4, Truck, car, camper, van, boat or trailer. You can simply remove your battery box from your vehicle if you don't need it taking up space, or if you want it to reach other appliances at your campsite.

Where can I buy a battery box & installation kit?

Get the lowest prices on battery box and installation kits at AutoZone. Adding a battery box to your commercial marine vessel ensures you pass the MCA check. The boxes are simple to install. Replace a leaking or failing battery as soon as possible to avoid being stranded. Find the best battery brands at any of our stores.

Can you put a 12V battery box in a camper?

Our heavy-duty 12V portable battery boxes can be securely mounted in your car, camper, or trailer. Easily remove the box when needed for more space or to power appliances at your campsite. Watch our Ultimate Dual Battery System Video for insights on dual battery fundamentals, chargers, isolators, and installation guides.

Why do you need a battery box?

Battery boxes are essential for installing auxiliary batteries in your vehicle, boat or RV. Batteries give off gas especially hydrogen. Large boating vessels

for commercial use need to have a battery box to comply with MCA rules. Proper ventilation allows the hydrogen molecules to vent avoiding an explosive buildup of the lighter than air element.

How do I recharge the 12V battery in my arkpak?

There are 3 easy ways to recharge the 12V battery in your ArkPak Simply plug your ArkPak into the mains power socket at home and ArkPak's built in charger will recharge most 12V batteries (up to 130ah / Group 31) overnight in 12-16 hours.
