

ContainerPower Energy Solutions

Pakistan Container Emergency Power Generation Equipment

Overview

Why is a reliable alternative solution needed for Pakistan's industrial sector?

As the global village grows, the competition is getting intense. Ever rising cost of electricity followed by frequent power outages is making it tougher for Pakistan's industrial sector to compete. The sector requires a reliable alternate solution.

What is a containerised generator?

Our Containerised Generators deliver robust, high-capacity power from 300–3,000 kVA in secure, weather-resistant enclosures. Designed for challenging environments and critical applications, they offer noise reduction, easy transport, and bespoke configuration to meet your site's exact needs.

Where to buy Cummins diesel engine & genset in Pakistan?

Orient Energy Systems Pvt Ltd, the official Distributor for Cummins Diesel Engines & Genset in Pakistan offers generator sets from 8.25 kVA to 3750 kVA.

What is a dual pack generator?

Simply put, dual packs are two parallel generators in one ISO container: Two 500 kW generators could be paralleled to achieve a 1000 kW output, or two 625 kW generators to achieve 1250 kW. This dual configuration increases the longevity of the overall unit by preventing the effects of light loading.

What is a Tier 4 containerized generator?

Our Tier 4 containerized generators are high-powered —500 kW to 1250 kW— units packaged in 30-foot or 48-foot ISO containers.

Are containerized generators reliable?

Years of use in the rental, oil and gas, mining and other heavy-duty industries

have tested the reliability, usability and durability of our containerized generators. Our primary design challenges in developing this line of containerized generators were usability, reliability and functionality for the end user.
