

ContainerPower Energy Solutions

Pole type outdoor power box

Overview

What is a pole mounted enclosure?

Pole Mounted Enclosures from Polycase Polycase offers several series of outdoor enclosure models designed for pole mount applications. These outdoor electrical enclosures are made from sturdy materials like stainless steel and aluminum, as well as non-metallic options like polycarbonate plastic.

Are polycase pole-mounted enclosures waterproof?

Pole-mounted enclosure solutions from Polycase are waterproof, weatherproof, and corrosion-resistant. Designed to protect your components in harsh outdoor environments, our outdoor electrical junction box models meet and exceed various NEMA and IP ratings.

Will a polycase Pole mounting kit fit my enclosure?

Polycase's pole mounting kits make mounting our outdoor enclosures on a pole fast and easy. Each kit is designed to fit specific models in Polycase's wide selection of outdoor electrical enclosures. That means no guessing if your kit will fit your enclosure, and no need to cut down or otherwise modify the hardware.

Can You mount electrical equipment on a power pole?

Mounting equipment on power poles is a frequent practice in many applications involving outdoor electrical wiring. Power distribution boxes are one obvious example, but many more exist, including traffic signals, outdoor WiFi equipment, circuit breakers, and outdoor lighting systems.

What is a pole box?

A pole box is a corrosion-free and chemically-resistant container, manufactured from polyethylene. It provides 450mm depth of cover as standard, extendable if required using modular access boxes as rising

sections.

What is a full sized pole storage box?

Full sized robust pole storage box for caravans made from top quality aluminium tread plate. A full sized pole storage box for any caravan model, ready for outdoor action on any terrain. Designed with rigidity and durability in mind, Polebox is built to last.
