Price of solar panels installed on roofs in Latvia

Overview

Various funding programs support rooftop solar PV installation, but concerns arise over the focus on suburban areas, neglecting densely populated cities. Amendments to electricity laws introduce net metering and net billing systems, with net metering being phased out by 2029.

Various funding programs support rooftop solar PV installation, but concerns arise over the focus on suburban areas, neglecting densely populated cities. Amendments to electricity laws introduce net metering and net billing systems, with net metering being phased out by 2029.

Latvia aims to increase renewable energy sources (RES) to 50% by 2030, but lacks specific solar targets in its current National Energy and Climate Plan (NECP). While a revised NECP draft has clearer goals, concerns remain about low targets on PV installations (from 19,000 microgenerators in 2023 to.

A study estimating the economic viability of rooftop solar in Estonia, Latvia and Lithuania forecasts the levelized cost of electricity (LCOE) for PV systems in the Baltic States at between €0.08 (\$0.087) and €0.09/kWh by 2050 at a 6% discount rate. Researchers from Riga Technical University and.
