Qatar Wind Solar and Energy Storage Project

↑ **ESS**

Overview

The project carries an Engineering, Procurement, and Construction (EPC) value of KRW 1.46 trillion and will be built in Dukhan, 80 kilometers west of Doha. Spanning 27□—equivalent to 3,790 football fields—the massive site will be fitted with 2.74 million solar panels.

The project carries an Engineering, Procurement, and Construction (EPC) value of KRW 1.46 trillion and will be built in Dukhan, 80 kilometers west of Doha. Spanning 27□—equivalent to 3,790 football fields—the massive site will be fitted with 2.74 million solar panels.

Between 2021 and 2024, QatarEnergy laid the foundational groundwork for its solar energy strategy, characterized by domestic consolidation and large-scale ambition. The company's 2021 rebrand from Qatar Petroleum signaled a strategic pivot that was quickly substantiated by concrete actions. The.

Samsung C&T E&C Group has been awarded the contract for Qatar's largest solar power project, underscoring its growing leadership in renewable energy infrastructure. Commissioned by QatarEnergy, the 2,000MW Dukhan Solar Power Project represents the largest capacity solar facility ever undertaken by.

Samsung C&T has been awarded the engineering, procurement and construction (EPC) contract for a new carbon capture and storage (CCS) project in Qatar, set to become one of the largest globally once operational. QatarEnergy announced the award for the facility, which will serve existing liquefied.
