

## ContainerPower Energy Solutions

# Romania Hybrid Compression Energy Storage Project

## Overview

---

Expansion of existing flexible generation plant at Răcari will add two 6MWh battery energy storage systems (BESS) to provide rapid-response for grid balancing services in Romania. One of the first projects in Romania to hybridise battery energy storage in.

Simtel, an engineering and technology group listed on the Main Market of the Bucharest Stock Exchange and one of the leading players in Romania's renewable energy sector, announces the signing of a contract worth approximately RON 217 million (excluding VAT) with HEPA Energy, a company owned by a.

Simtel (BVB: SMTL), an engineering and technology group listed on the Main Market of the Bucharest Stock Exchange and one of the leading players in Romania's renewable energy sector, announces the signing of a contract worth approximately RON 217 million (excluding VAT) with HEPA Energy, a company.

In an accelerating investment wave, companies in Romania are combining BESS with solar power, hydropower and wind power, or building standalone energy storage facilities. The group includes R.Power, Hidroelectrica, Engie and more big names. Recent updates about investments in battery energy storage.

In an accelerated wave of investments, companies in Romania are combining battery energy storage systems (BESS) with solar, hydro or wind energy, or building independent storage facilities. The list includes big names such as Verbund, Engie R.Power, Hidroelectrica. The specialized publication.

Romanian developer Monsson has installed a 24 MWh battery storage system as the first stage of a 216 MWh project. The storage unit forms part of

Romania's first hybrid PV-wind-battery system. Romanian developer Monsson has commissioned a 24 MWh (6 MW x four hours) battery storage system as part of.

Expansion of existing flexible generation plant at Răcari will add two 6MWh battery energy storage systems (BESS) to provide rapid-response for grid balancing services in Romania. One of the first projects in Romania to hybridise battery energy storage in parallel with high-efficiency gas engines.
