

## ContainerPower Energy Solutions

# Russian container energy storage products company

## Overview

---

Who are the companies based in Russian electrochemical research & development?

Our group of companies has built up extensive competencies in the field of fundamental electrochemical research and introduction of products to the Russian and international markets. The main product lines are ASTRA, TOPAZ, ESS. 10 joint laboratories, including 4 with institutes of the Russian Academy of Science.

Who is Shanghai Zee energy storage technology?

Shanghai ZOE Energy Storage Technology Co., Ltd., established in 2022, is dedicated to providing global users with safe, efficient, and intelligent energy storage product system solutions. The company is headquartered in Shanghai, with its R&D center in C.

What is China's Energy Storage Center?

Through strategic partnerships with the Chinese Academy of Sciences, Zhejiang University, and the University of Electronic Science and Technology of Chengdu, the center advances the development and application of cutting-edge energy storage technologies. The company operates advanced energy storage factories with a total capacity of 4GWh.

What are CATL battery-powered energy storage systems?

CATL battery-powered energy storage systems provide energy storage and flexibility in power generation. Instant utilization and energy output due to battery electrochemical technology and the technology of electricity production using gas-piston units can be combined into a single most efficient system.

How does a CATL energy storage system work?

CATL energy storage systems provide smart load management when working

in parallel with the network, instantly modulate the frequency and peaks depending on the load on the external network. In this case, the ESS performs the functions of increasing and expanding peak power, backup power functions and smoothing consumption peaks.
