

ContainerPower Energy Solutions

Russian household solar energy storage power station

Overview

Does Russia have sufficient solar energy?

Despite the common misconception, Russia has more than enough insolation to produce solar energy. Moscow-based renewables company Unigreen Energy, which has received a government guarantee for its solar power contributions, confirms this.

How many solar power plants are there in Russia?

Insolation map of Russia (Map of Insolation of Russia, 2019). At the beginning of 2020, thirteen solar power plants with a total installed capacity of more than 300 MW are already operating in this region (Solar Power Plants in the Orenburg Region, 2019).

What is Russia's current share of solar power?

While the global economy gets roughly 10% of its power from wind and solar sources, in Russia, solar's share is just 0.2%. As the third-largest carbon emitter in human history, Russia faces an uphill battle in its attempts to move from fossil fuels to renewable and other sources of clean energy.

How much does a solar power plant cost in Russia?

According to Russian suppliers for solar power plants (altecology.ru, 2019; Solar controller, 2020), the average cost of equipment for solar power plants with an installed capacity of 10 MW is 310 million rubles.

Could a hybrid solar-diesel power station help Russia's Arctic settlements?

Both Unigreen and HVEL experts said Russia's many Arctic settlements could benefit from hybrid solar-diesel power stations. These stations would cut costs and solve supply chain and shortage problems. "Most Russian regions have high insolation — above 1,000 — the level required to generate energy," the company said in a statement.

How many wind power stations are there in Russia?

Three large wind power stations (25, 19, and 15 GWt [clarification needed]) became available to Russia after it took over the disputed territory of Crimea in May 2014. Built by Ukraine, these stations are not yet shown in the table above. // 55.0840139; 36.5713472 (Obninsk Nuclear Power Plant)
