Rwanda is. How much does a solar home system cost in Rwanda?

Energy Private Developers (EPD) has currently registered over 40 solar companies who have invested in Solar Home System (SHS) business. SHS kits Capacities available on Rwandan market are those of 12W, 20W, 40W, 50 W, 100W, 120W, 200W and 300W with average price per a kit of 67,678 Rwf.

Is there a market for solar energy in Rwanda?

Only few companies in Rwanda are active in the field of solar energy. They focus mainly on the market for larger systems for public institutions, e.g. hospitals, schools etc through public tenders. In addition they and others are also trying to sell solar home systems but the market for solar lanterns and small home systems is still in its infancy.

How much electricity does Rwanda have in 2021?

By May 2021, Rwanda's generation capacity installed is currently 238.052MW. 1,752,345 households have been connected to electricity where 1,278,601 households are on grid and 473,744 households connected to Off-grid mainly solar. Solar energy is a promising solution to meet the demand for rural households' electricity services in remote locations.

Can solar power be used in Rwanda?

Rwanda has chosen to focus on the use of solar power in two main areas: electrification of clinics, schools and administrative offices in remote centers and solar water heating. This approach offers significant environmental and recurrent cost savings, substituting biomass and electricity water heating.
