

ContainerPower Energy Solutions

Saudi Arabian Battery Energy Storage Company

Overview

Saudi Arabia has solidified its position among the world's top ten battery energy storage markets, marked by the commissioning of the 500 MW/2,000 MWh Bisha Battery Energy Storage System in the southwestern province of 'Asir. Why is battery storage important in Saudi Arabia?

BYD and Saudi Electricity Company will deliver a record 15.1GWh of storage, advancing Saudi Arabia's Vision 2030 and accelerating clean energy goals. Battery storage projects play a vital role in enhancing grid stability and efficiency, making them essential for modern energy systems.

What does BYD energy storage mean for Saudi Arabia?

BYD Energy Storage and Saudi Electricity Company (SEC) have signed a contract to deliver the world's largest grid-scale energy storage project totalling 12.5GWh. This milestone supports Saudi Arabia's Vision 2030, which targets 50% renewable energy in the national mix by the end of the decade.

How a 12.5 GWh battery storage project will help Saudi Arabia?

The 12.5 GWh battery storage project will solve this issue by storing energy and ensuring a steady power supply. This is very important in Saudi Arabia. The nation's energy demand is high because of extreme temperatures and heavy electricity use.

Will Saudi Arabia develop a storage capacity of 48 gigawatt-hours?

Under the National Renewable Energy Program, which is overseen by the Ministry of Energy, Saudi Arabia aims to develop a total storage capacity of 48 gigawatt-hours by 2030. To date, projects totaling 26 gigawatt-hours have been tendered and are currently in various phases of development.

How many GWh of energy storage will Saudi Arabia have by 2025?

Projections indicate that Saudi Arabia aims to operate 8 GWh of energy storage projects by 2025 and 22 GWh by 2026, positioning the nation as the

third-largest global market for energy storage, following China and the United States.

Which is the largest energy storage project in the Middle East?

This facility stands as one of the largest energy storage projects in the Middle East and Africa. The Bisha BESS, owned by Saudi Electric Company , comprises 122 prefabricated storage units designed and supplied by China's BYD.
