## Overview

---

Is Senegal achieving universal energy access?

With a national electricity access rate of 84%, Senegal is making progress towards universal energy access, yet more than 30% of rural communities remain disconnected from the grid.

Does Senegal have a stable electricity supply?

In January the World Bank, in a feature on the transformative impact of a stable electricity supply since the beginning of 2025 in Ndong Serere – a village located 100km from Senegal's capital city Dakar – said the country's commitment to universal electricity access is supported by innovative financing and strategic partnerships.

Where is Senelec power project located?

The project is located near Mbouky, approximately 145 km from Dakar. Tenergie, the initial developer of the project, signed a 25-year Power Purchase Agreement with Senelec at the end of December 2013.

Who owns Senelec power?

Tenergie, the initial developer of the project, signed a 25-year Power Purchase Agreement with Senelec at the end of December 2013. Meridiam partnered with Eiffage and joined the project as majority shareholder to finalize the development phase and raise the financing required for financial close.
