

ContainerPower Energy Solutions

Serbia lithium battery station cabinet manufacturer

Overview

Could Serbia be a technological leader in LFP battery production?

The Republic of Serbia could be a technological leader in LFP battery production in the whole world outside of China, because it has a chance to become the first in Europe to mass-produce this type of battery. The signed Memorandum with the European Union envisages a serious focus on the ecosystem of electric vehicles and battery production.

What are labtron lithium ion battery storage cabinets?

Labtron Lithium Ion Battery Storage Cabinets are engineered for secure storage and controlled battery charging environments. These cabinets feature self-closing, oil-damped doors and triple hinges for maximum structural endurance. They are constructed with a powder-coated steel body and integrated leak-proof sump for safe containment.

How much weight can a lithium ion battery storage cabinet hold?

Max. Shelf Load Max. Shelf Load: 75 kg Max. Shelf Load: 75 kg We are a supplier of high-quality Lithium Ion Battery Storage Cabinet, featuring a powder-coated steel chamber with self-closing, oil-damped doors for safe storage and controlled battery charging environments.

How long will it take to localize and scale production in Serbia?

Our plan is to localize and scale production in Serbia in the next seven to eight years. To slowly bring in our partners and to participate in the creation of the supply chain in Serbia. That would mean about three to five billion euros per year, for our supply chain alone, and about 5,000 new jobs in our company.
