Shelter Solar Control System

Overview

Why should you choose Sels solar charging shelters?

Tailored for the great outdoors, this shelter not only blends seamlessly with nature but also ensures a reliable power source for both personal devices and essential equipment, redefining the concept of sustainable and accessible wilderness amenities. SELS Solar charging shelters have a modern and applicable design.

Are Sels solar charging shelters ADA compliant?

SELS Solar charging shelters have a modern and applicable design. The commercial-grade, reinforced bench accommodates ADA compliant seating and the canopy houses the built-in solar panels for optimal charging capabilities. Custom color options allow you to choose a color that matches your surrounding areas.

What is a Sun-in-one solar bus stop & bus shelter lighting system?

Sun-In-One Solar Bus Stop and Bus Shelter Lighting Systems come complete with a self-contained solar power assembly sized to run the specified solar light fixture as per the requirements set by the customer. Our team designs each system by the power consumed by the fixture and available sun provided by the geographical location of installation.

What is a Solar Shed Lighting & Power Kit?

Sun-In-One™ Solar Shed Lighting and Power Kits can transform a shed, pavilion, shelter or out building into a well-lit usable space with DC and AC power, without the expensive costs associated with trenching, wiring or electrical connections. Do you have an out building that does not have power or a Shed far from the house?

How does the Solar System Controller work?

The system controller has an inbuilt feature to protect the battery from damage due to excessive discharge, if additional hours of operation are used or adverse weather occurs the controller will not allow the lighting to be used when the battery is below 11.7V. The hours of performance are based on the solar panel facing south.

What is a PV inverter shelter?

The PV Inverter Shelter offers a sturdy construction with a short assembly time. The shelters provide a perfect total solution for your cable management in combination with our other ValkCableCare products. It is available in three different configurations: Single, Double, or Wall. Download the datasheet
