# Singapore s 500 000 battery cabinet project

## Overview

---

What is Singapore's biggest battery storage project?

Singapore has surpassed its 2025 energy storage deployment target three years early, with the official opening of the biggest battery storage project in Southeast Asia. The opening was hosted by the 200MW/285MWh battery energy storage system (BESS) project's developer Sembcorp, together with Singapore's Energy Market Authority (EMA).

Does Singapore need energy storage systems to manage solar intermittency?

However, the minister said there is a need to "step up energy storage systems to manage solar intermittency." Talks are currently ongoing with Sembcorp, the engineering conglomerate behind the 200MW/285MWh battery energy storage system (BESS) installation on Singapore's Jurong Island.

Can a sodium-ion battery be used for energy storage in Singapore?

Posh Electric specialises in developing ESS that run on sodium-ion batteries. With the grant, the company will study the viability of this newer type of battery for energy storage in Singapore. Sodium is 1,000 times more abundant on earth compared with lithium, which has to be mined in specific areas, such as briny water and rock ores.
