Slovenia energy storage solar power generation prices

Overview

How much will Slovenia spend on solar energy projects?

Data Protection Policy Slovenia has set aside €16 million (\$16.7 million) to support solar energy communities, requiring projects to include at least 100 kW of PV capacity, with or without storage. The program will run until 2027.

How much power does a photovoltaic system need in Slovenia?

The government and Slovenia's EU Cohesion Policy Program are co-financing the initiative, the ministry said in a statement. "The total nominal power of the installed photovoltaic modules must be at least 100 kW, with or without battery energy storage systems," the authorities said.

How much does electricity cost in Slovenia?

Slovenia, September 2022: The price of electricity is 0.295 U.S. Dollar per kWh for households and 0.186 U.S. Dollar for businesses which includes all components of the electricity bill such as the cost of power, distribution and taxes.

How to invest in the renewables sector in Slovenia?

Investment in the renewables sector has been dependent on the availability of financing mechanisms. The Slovenian Energy Agency is the competent authority for tenders for the feed-in support scheme. Power plant operators, awarded by public tender, may choose between guaranteed purchase and operating premium.

Where does Slovenia's electricity come from?

Approximately one-third of Slovenian electricity consumption is derived from two brown-coal and lignite fired power stations. These ageing power stations account for all of the domestically mined coal.

Do solar power plants need a building permit in Slovenia?

Solar power plants with the maximum power of up to 1MW are, according to the Decree, considered small power plants and do not require a building permit to be installed. The Decree simplifies investing in renewables and is a welcome change as procedures for obtaining building permits in Slovenia can be time-consuming. 3.
