

ContainerPower Energy Solutions

Slovenia s new outdoor power market

Modular design,
unlimited combinations in parallel

BUILT-IN DUAL FIRE PROTECTION MODULE

Overview

Slovenia plans a coal exit by 2033, targeting 43% renewables by 2030. Rising commodity prices, falling renewable costs, and increasing demand will drive opportunities for new renewable projects. Slovenia's energy mix is dominated by coal, nuclear, and weather-dependent hydro. What is Slovenia's energy industry like?

Slovenia's energy companies are active in developing innovative electricity transmission and distribution solutions, while the country's energy infrastructure is among the strongest in the region. Ministry of the Environment, Climate, and Energy Langusova 4, SI- 1000 Ljubljana, Slovenia.

Where do Slovenian electricity suppliers trade?

Slovenian electricity suppliers trade on foreign electricity markets, including the European Energy Exchange and the BSP SouthPool Regional Energy Exchange. For instance, GEN-I bought and sold over 3.3GWh in Germany and Austria, 2.5GWh in Bulgaria and Romania, 1.1GWh in Hungary, and 2.5GWh in other Southeast European markets in 2010.

How many hydropower plants will Slovenia have by 2045?

Another pumped storage hydropower plant is seen by 2045. It would be able to generate 180 MW and store 2.6 GWh. The Integrated National Energy and Climate Plan envisages an overall 500 MW in gas power plants in Slovenia by the end of the decade.

Is Slovenia an open market?

Slovenia has been an open market since its successful economic transition in the 2000s. As a member of the European Union since May 2004 and of the Eurozone since 2007, Slovenia is an advanced, independent, and stable country.

Who controls the electricity market in Slovenia?

In Slovenia, most of the players in the electricity market are directly or indirectly controlled by the Republic of Slovenia (1.1.1 Overview). Despite the government's privatisation agenda, the companies to be privatised and the exact scope of privatisation and/or strategic partnership remain uncertain.

Will Slovenia build a second nuclear power plant?

Slovenia aims to decide by 2028 whether it will build its second nuclear power plant. The government is targeting a 55.4% share of renewables in electricity, 45.2% in heating and cooling and 25.8% in transportation, according to the updated NECP for 2030.
