Solar Panel Ladder

Overview

What is a solar bridging ladder?

Ideal for repairs, inspection and maintenance, The Solar Bridging Ladder makes it easier to safely reach the solar panels once on the roof. Its three-part design is lightweight and easy to use. The CoverSafe Spark provides protection when working in loft spaces, especially for installing solar inverters.

How does a PV ladder work?

A pulley system is attached to the top of the ladder. A patented module “hook” attaches to the edge of a PV module frame and prevents lateral sliding of the module in the hook. An operator pulls the rope to raise the module. The module slides along the outward facing surface of the ladder rails.

How does a solar panel installation platform work?

The solar panel installation platform can be transported easily in a transit van or on a roof rack, and it assembles within minutes. Its lightweight construction also allows the platform to be lifted and shifted around the worksite without disassembly, making it ideal for projects that require flexibility.

How does a ladder module work?

An operator pulls the rope to raise the module. The module slides along the outward facing surface of the ladder rails. “Ramps” allow the module to slide over any discontinuities in the ladder surface (e.g. the step between sections in the ladder).

What is a solar line access system?

The SolarLine Access System consists of a Solar-Dec platform integrated with a hoist and connected by an Easi-Dec Catwalk to an Easi-Dec standard platform. Ideal for repairs, inspection and maintenance, The Solar Bridging Ladder makes it easier to safely reach the solar panels once on the roof. Its

three-part design is lightweight and easy to use.

What is a solar-DEC access platform?

Designed for safe roof access during solar panel installation, the Solar-Dec Access Platform provides a strong, stable work surface. The SolarLine Access System consists of a Solar-Dec platform integrated with a hoist and connected by an Easi-Dec Catwalk to an Easi-Dec standard platform.
