Solar Insure introduces the SI-30 Battery Warranty, a 30-year protection solution designed to provide homeowners and solar providers with long-term reliability and confidence in their energy storage systems.

What is a solar warranty?

A solar warranty is a guarantee that provides coverage for solar energy systems, addressing the increasing demand for dependable and future-proof solutions in the solar industry.

How long does a solar module warranty last?

Until this year, the standard performance warranty offered by top tier solar module makers was a guarantee of 25 years of energy production at 80% or higher of their stated output. The product (in terms of materials and workmanship) warranty was a guarantee for 10 years in most cases.

What is the SI-30 battery warranty?

The SI-30 Battery Warranty is designed specifically for battery retrofits and standalone storage solutions. It allows solar providers to re-engage their existing customers and open new revenue streams, while homeowners benefit from industry-leading protection.

Is energy storage a good option for your solar system?

Energy storage is becoming an integral part of solar installations, with adoption increasing by over 300% since 2020. As approximately one in four solar systems now include a battery, homeowners and solar providers require dependable solutions to ensure these systems' long-term functionality and performance.
