

ContainerPower Energy Solutions

Solar panel electricity generation in Seychelles

Overview

The Seychelles enjoy favourable conditions for renewable energy (RE) resources, such as wind and solar. However, renewable energy has been very little tapped so far – the only renewable energy installation being a 4 MW wind farm off Port Victoria and a limited amount of rooftop.

The Seychelles enjoy favourable conditions for renewable energy (RE) resources, such as wind and solar. However, renewable energy has been very little tapped so far – the only renewable energy installation being a 4 MW wind farm off Port Victoria and a limited amount of rooftop.

We supply and install high quality solar energy systems and solar hot water products in the Seychelles. Our aim is to provide reliable technologies including photovoltaic panels and dependable installation service. Certified by Seychelles Energy Commission Approved by PUC Use solar energy.

Seychelles aims to generate 15 per cent of its electricity from renewable sources by 2030. Three mtu EnergyPacks QL compensate for power fluctuations and thus stabilise the grid. South of the equator, on the western Indian Ocean, the Seychelles are located in a tropical idyll. With its dream.

The much-anticipated 5MW Floating Independent Power Producer (IPP) Photovoltaic (PV) project in the Providence Lagoon is poised to commence in the coming weeks, following the formal signing of project documents between the Government of Seychelles and renewable energy developer Qair. First.
