Solar panel power determination

Lithium battery parameters

Product capacity: 100Ah

Product size: 135*197*35mm

Product weight: 1.82kg 197mm
/7.7in

Product voltage: 3.2V

internal resistance: within 0.5

Overview

After collecting electrical output data from several solar panels, they plot the current-voltage (I-V) and power curves. Working with the variable “amount of light,” students identify voltage and current at maximum power output for several solar panels.
