We will deliver solar panels to your door in the fastest, safest, and most economical way possible. We provide shipping and delivery services to the USA (including Alaska and Hawaii,; extra charges will apply). We do NOT provide shipping to South America, Europe, Africa, the Middle East, or Asia.

How are solar panels shipped?

1. Solar panels are typically shipped in a well-defined manner to ensure their protection and integrity during transit, including packaging, transportation methods, and delivery mechanisms.
2. Packaging involves specialized materials that prevent damage, securing.

Transporting solar panels from manufacturer to an interim processing site, distributor or installation site can be very challenging as the panels are delicate and can be easily damaged. Solar panels and their components require more than the standard TLC in handling and transportation to avoid.

FreightCenter connects you with top-rated carriers to ship solar panels safely and affordably, whether you're a manufacturer, distributor, or homeowner. LTL

shipping is used for small freight or when the items don't require the use of an entire trailer. Your freight is combined with other shipments.
