# Solar panels at the Barbados solar plant

## Overview

---

Barbados has taken a significant step toward a sustainable future with the launch of its first utility-scale solar plant. Located in St. Lucy, the 10MW facility showcases the island's commitment to reducing its carbon footprint and enhancing national energy security.

The solar portfolio will be spread across 50 sites throughout the island-state, adding to Barbados' 30 MW solar portfolio and pushing the country closer toward being powered by 100% renewables by 2030. Jurchen Technology, a German-based manufacturer of racking and direct current (dc) cabling solar.

In 2020 I wrote a review about the Sun Exchange, the world's first peer-to-peer solar panel micro-leasing platform which powers solar projects primarily in South Africa. Now a very similar model is available in Barbados which allows Barbadians to own solar panels within an operating solar project.

Community Windpower (CWL) and Barbados National Oil Company Limited (BNOCL) are collaborating on the development of Brereton Solar Farm which will be sited on the Carrington & Woodbourne Estates in St. Philip, Barbados. Currently the land is used to extract oil and gas from the derricks that can be.

The Ministry is committed to developing a viable and competitive sustainable energy sector, through targeted and strategic renewable energy and energy conservation initiatives. The focus of the Ministry is to advance legislation, policy and programmes to give life to Government's stated policy of.
