

## ContainerPower Energy Solutions

# South Africa Wind Solar and Storage Integrated Project

## Overview

---

It's touted as South Africa's first wind-solar-storage integrated virtual power plant (VPP), and once connected to the grid will help alleviate the impacts of the country's power crisis caused by insufficient generation capacity.

It's touted as South Africa's first wind-solar-storage integrated virtual power plant (VPP), and once connected to the grid will help alleviate the impacts of the country's power crisis caused by insufficient generation capacity.

According to the report, Scatec, a Norwegian renewable energy company, has unveiled the Kenhardt solar farm in the Northern Cape, boasting a capacity of 540 MW. This project, featuring 225 MW of battery storage and a total storage capacity of 1.1 GWh, ranks among the largest hybrid power.

Sungrow will supply EDF Renewables with liquid-cooled energy storage systems and MV transformers for the Umoyilanga project in South Africa. Solar solutions provider Sungrow has signed a supply agreement with French renewable energy group EDF Renewables to provide liquid-cooled energy storage.

A consortium led by Copenhagen Infrastructure Partners (CIP) and EDF has secured preferred bidder status for three battery energy storage system (BESS) projects in South Africa. The projects, Oasis Aggeneis, Oasis Mookodi, and Oasis Nieuwehoop, collectively amount to an impressive 257MW/1,028MWh of.
