South Ossetia solar system model

Overview

What is solar system scope?

Welcome space explorer! Solar System Scope is a model of Solar System, Night sky and Outer Space in real time, with accurate positions of objects and lots of interesting facts. We hope you will have as much fun exploring the universe with our app as do we while making it :) Want to know more about Solar, it's History, Team behind it and all?

.

How is the Solar System tilted relative to the Earth?

At present, the solar system is tilted 60° relative to the plane of the galaxy. The Moon revolves around the Earth in an orbit whose plane almost coincides with the plane of the Earth's orbit, at a speed of 1.023 km/s, making a complete revolution relative to the Sun in 29.5 days (Synodic month).

What is the NAAP Solar System models Lab?

The NAAP Solar System Models Lab introduces the universe as envisioned by early thinkers culminating in a detailed look at the Copernican model. First time users of NAAP materials should read the NAAP Labs - General Overview page.

How do you explore the Solar System in 3D?

Explore the Solar System in 3D. Planets and constellations will come to life before you. With an astronomical compass, navigate the stars and planets in real time The Earth revolves around the Sun at a speed of 29.78 km / s, making a complete revolution in 365.25 solar days (sidereal year).
