Colombo, Sri Lanka - Marking a pivotal moment in South Asia's renewable energy journey, SgurrEnergy has secured a ground-breaking contract for Sri Lanka's first 100MW Solar PV project integrated with a 12MWh Battery Energy Storage System (BESS). This first-of-its-kind initiative sets a new.

Hydro is Sri Lanka's main source of renewable generation today, but the government is seeking to encourage more solar PV and wind investment. Image: Ceylon Electricity Board. The Asian Development Bank (ADB) multilateral finance institution has approved a loan to upgrade Sri Lanka's grid.

As a key step towards achieving the target of fulfilling 70% of the country's electricity demand from renewable energy by 2030, construction work on the Siyambalanduwa "Rividanavi" Solar Power Park, Sri Lanka's largest renewable energy project, commenced this morning (06) under the patronage of.

The project will deploy technologies such as string inverters, bifacial or mono PERC modules, and fixed tilt or horizontal single-axis tracking systems. A contract has been awarded to SgurrEnergy to build Sri Lanka's first MW solar PV project, which will include a 12 MWh battery energy storage.
