

## ContainerPower Energy Solutions

# Syria three-phase power frequency inverter

## Overview

---

What is a 3 phase variable frequency inverter?

The 3 phase variable frequency inverter with input frequency 50Hz / 60Hz has good performance, such as overcurrent protection, overvoltage protection, and undervoltage protection. The variable frequency inverter usually applies for electric vehicles, power generation, marine, and aerospace.

What is a three-phase inverter?

A three-phase inverter is an electronic device used to convert direct current (DC) into three-phase alternating current (AC). This type of inverter is commonly used in industrial and commercial applications where three-phase power is needed, such as in electric motors, pumps, fans, and other heavy machinery.

What is the rated current of a 3 phase inverter?

Rated current 21A at 380V~ 480V, 3.8A at 220V~240V. 3 phase inverter with sensorless vector control can work at (-10°C, 40°C). Come with RS485 communication mode, vfd inverter 3 phase has IP20 enclosure rating. 1.5kw variable frequency inverter for sale, vfd inverter 3 phase 230V, 400V, 480V, rated current 3.8A at 380V ~ 480V, 5.1A at 220V ~ 240V.

What is a 90 kW 3 phase inverter?

90 kW 3 phase inverter 230V, 400V, 460V, IP 20 enclosure rating, V/F control mode, 5%-95%, without condensation. The 3 phase variable frequency inverter with input frequency 50Hz / 60Hz has good performance, such as overcurrent protection, overvoltage protection, and undervoltage protection.

What is VFD inverter 3 phase?

Equipped with IP20 enclosure protection, the vfd inverter 3 phase has strong impact resistance and high safety performance. With RS485 communication, the PID controller of frequency drive inverter is convenient to make closed-

loop system. Easy to install and use.

How much torque does a 3 phase inverter have?

Start torque reaches 150% of rating torque at 1Hz. 3 phase inverter with output voltage 3 phase AC 0~input voltage can work at (-10°C, 40°C). Reliable 160 kW variable frequency inverter, 3 phase inverter input voltage 240V /420V /480V AC  $\pm 15\%$  can be optional.
