

ContainerPower Energy Solutions

Technical requirements for energy storage battery cabinets

Overview

Standards such as NFPA 855 (U.S.), EN 14470-1 (Europe), and UL 9540A testing requirements set stringent performance criteria for fire containment, temperature resistance, and electrical safety. How should battery energy storage system specifications be based on technical specifications?

Battery energy storage system specifications should be based on technical specification as stated in the manufacturer documentation. Compare site energy generation (if applicable), and energy usage patterns to show the impact of the battery energy storage system on customer energy usage. The impact may include but is not limited to:.

What are the customer requirements for a battery energy storage system?

Any customer obligations required for the battery energy storage system to be installed/operated such as maintaining an internet connection for remote monitoring of system performance or ensuring unobstructed access to the battery energy storage system for emergency situations. A copy of the product brochure/data sheet.

Which technical features/characteristics of battery energy storage system should be supported?

Any technical features/characteristics/specifications of the battery energy storage system stated on information provided to customer should be supported by scientific research or testing conducted by the manufacturer.

What should a battery energy storage system Quote include?

Quotation should include a copy of the battery energy storage system manufacturer warranty T&Cs which should contain manufacturer and/or Australian importer contact details for warranty claims.

Can a battery energy storage system be installed in Australia?

Any upgrades to existing site electrical infrastructure required to install

proposed battery energy storage system. All components of the system should be suitable for installation under Australian legislation and Standards.

How do I certify a battery energy storage system?

Provide a hardcopy and electronic copy of the battery energy storage system SDS. Provide a copy of NETCC consumer information guide. Provide customer with the name and licence/accreditation number of the tradesperson who designed/signed off on the installation.
