Uruguay grid-side energy storage investment

Overview

What was the energy grid like in Uruguay?

Uruguay's energy grid was powered almost exclusively by domestically created, renewable energy, and, adjusted for inflation, consumer prices had gone down. Today, there are more than 700 wind turbines installed across Uruguay's countryside. "It was absolutely a complete transformation," says Méndez Galain.

Does Uruguay's power grid run on 98% green energy?

Uruguay's power grid runs on 98% green energy. Here's how it got there : Planet Money : NPR Uruguay's power grid runs on 98% green energy. Here's how it got there : Planet Money In 2007, Uruguay had a massive problem with no obvious fix.

Does Uruguay have a green grid?

Countries all over the world have announced lofty goals to reduce the emissions that cause climate change. But Uruguay actually did it. In a typical year, 98% of Uruguay's grid is powered by green energy. How did it get there?

It involved a scientist, an innovative approach to infrastructure funding, and a whole lot of wind.

How much money does Uruguay need to transform the grid?

But given that Uruguay's GDP was just \$41.95 billion in 2010, the government was wary of funneling an estimated \$7 billion of public money into the huge renewable energy projects that would have to be undertaken in order to transform the grid. Instead, the leftist party chose to ask private companies to take on much of the financial risk.

How much green energy does Uruguay use?

In 2016, even before several more renewables projects went online, it hit 94.5

percent green energy. In 2019, according to an analysis by the Uruguayan company SEG Engineering, the country ran on 98 percent renewable energy.

What is Uruguay's energy future?

His vision for Uruguay's energy future was to cover that empty land with hundreds of wind turbines. Today, wind power accounts for around 40% of Uruguay's energy production. And, according to a 2008 law, all the wind in the country officially belongs to the Uruguayan people.
