Uzbekistan s electricity generation from solar panels

Overview

Since the beginning of 2025, the volume of electricity generated by solar and wind power plants in Uzbekistan has exceeded 7 billion kWh, the Ministry of Energy reported. Of this amount, 4.36 billion kWh was produced by solar plants, while 2.64 billion kWh came from wind facilities.

Since the beginning of 2025, the volume of electricity generated by solar and wind power plants in Uzbekistan has exceeded 7 billion kWh, the Ministry of Energy reported. Of this amount, 4.36 billion kWh was produced by solar plants, while 2.64 billion kWh came from wind facilities.

More than 35,000 households in Uzbekistan received state subsidies for exporting surplus electricity from rooftop solar systems between January and September, says the State Tax Committee, as participation in the Solar Home program accelerates nationwide. Image: Daniele La Rosa Messina/Unsplash.

More than 35,000 Uzbeks have received financial support from the state for generating electricity through solar panels, according to the State Tax Committee. Between January and September 2025, 35,284 individuals were granted a total of UZS 153.6bn (\$12.8mn) in subsidies from the state budget for.

3.85 million solar panels – that’s how many were imported into Uzbekistan in 10 months of 2023. This staggering figure represents a 21-fold increase compared to the previous year, underscoring the rapid and ambitious growth of solar energy in the country. Uzbekistan is making significant strides in.

Solar and wind power plants in Uzbekistan have generated 9 billion kWh of electricity as of October 22, Trend reports via the Ministry of Energy of Uzbekistan. This milestone reflects the country’s ongoing efforts to achieve the strategic goals set by the President during the 78th session of the UN.

Solar, wind, and hydropower plants now account for 21.5% of total electricity generation. In just 26 days, output increased by another 1 billion kWh. Since the beginning of 2025, the volume of electricity generated by solar and wind power plants in Uzbekistan has exceeded 7 billion kWh, the.

In this episode of Business Line Uzbekistan, we look at how the country is rapidly embracing solar power, securing billions in foreign investment and cutting emissions to position itself as a leader in renewable energy. Uzbekistan is rapidly expanding its solar energy sector, with 11 solar plants.
