Overview

What is the energy access project in Vanuatu?

The project will assist Vanuatu install hydropower generation to replace diesel generation in Malekula and will extend the distribution grid in both Malekula and Espiritu Santo. Project preparatory technical assistance was used in project preparation. Energy Access Project: Audited Project Financial Statements (January-December 2021).

Will solar power boost Vanuatu's energy independence and climate resilience?

The project aims to support the use of solar power and battery storage on the islands of Efate and Tanna, boosting Vanuatu's energy independence and climate resilience. New Zealand's Deputy Prime Minister and Minister for Foreign Affairs, Winston Peters, confirmed the country's commitment during a press conference held in Port Vila on Wednesday.

Does Vanuatu have a low electricity access rate?

Vanuatu currently has one of the lowest electricity access rates in the world. Under the RESSET project, New Zealand will serve as the lead donor, providing the majority of funding for the installation of solar arrays and battery storage systems on Efate, near Port Vila, and the island of Tanna.

Does New Zealand support Vanuatu's climate and energy priorities?

The New Zealand Government is increasing its support for Vanuatu's climate and energy priorities through a major investment in the Renewable Energy Solar and Storage on Efate and Tanna (RESSET) project. This initiative responds directly to Vanuatu's national climate goals and energy needs by improving access to clean and reliable electricity.

Will New Zealand help build resilience in Vanuatu?

We are pleased to announce that New Zealand will also be the lead donor to RESSET, a renewable energy project on Efate and Tanna. Together with

initiatives like these, we continue to work together to build resilience in Vanuatu's long-term development," Mr. Peters said.

Does Vanuatu need electricity?

This initiative responds directly to Vanuatu's national climate goals and energy needs by improving access to clean and reliable electricity. Vanuatu currently has one of the lowest electricity access rates in the world.
